

Transition from Primary School to High School Script

My name is (insert students name here)

This year I go to (insert school name here) Primary School.

Next year I will go to (insert school name here) Secondary School.

At the end of Year 6 all the students leave Primary School and go to Secondary School. Not everyone goes to the same Secondary School.

Many Year 6 students feel a bit worried about leaving their Primary School. Lots of students feel this way. This is OK.

To help me learn about my new school I will visit the Secondary School in Term 4 this year.

During the visit to the Secondary School I will meet some of my teachers.

I will have a map of the new school and I will practise finding my classroom.

Someone will teach me how to read a High School timetable.

Someone will teach me how to use a locker.

I will have a checklist of things I will do at my visit so I know what to expect.

It will be a good time to ask questions about Secondary School when I visit the new school. I can make a list of questions to ask.

Next year at Secondary School, if I am not sure where to go, I can go to the front office or the Special Education room. I can get help there.

I feel calm now that I know these things. 😊

Transition from Primary School to High School Script
